WELCOME TO PAC-LAB HITMS!

Located in the heart of Cameroon's National Petrol Company, Limbe is a cosmopolitan city with a blend of various cultures, the beautiful black sand beaches wetting generously in the waves of the Atlantic Ocean, stretching along the Amba Bay in the Gulf of Guinea, lying at the southern foot of Mount Cameroon and about 80 Km from the economic capital, Douala.

PAC-LAB Higher Institute of Technology and Management Sciences is Authorized by the Ministry of Higher Education. We run five Schools with a deep focus on hands-on learning at our 2-decades-old laboratories. You can enroll to study Chemical, Petroleum, and Mining Engineering at the School of Engineering.

Medical Laboratory Sciences, Pharmacy Technology, and Nursing at the School of Medical & Biomedical Sciences. Risk, Waste, Hydrology and Water Resource Management, and lots more at the school of Environmental Sciences and Water Management. Our Schools of Education and Business all provide job-market skills upon graduation. PAC-LAB Higher Institute of Technology and Management Sciences Mile 4 Limbe, we take you beyond knowledge to practice. Beyond grabbing an HND or BTech, you secure a job. Please, take full advantage of this prospectus!

PAC-LAB HITMS GIVES YOU 7 REASONS WHY STUDYING IN LIMBE IS A GREAT DECISION

1. AN EXQUISITE CULTURE 4. MEET A VIBRANT A GROWING POPULATION

Limbe is known as a city of friendship and it is a blend of a warm, friendly and colorful culture. It is quite easy to adapt and to appreciate the people and their culture in Limbe.

2. STUDY IN THE COSMOPOLITAN CITY

Limbe is one of Cameroon's cleanest and safest cities. With a serene and peaceful environment.

3. HISTORIC

This coastal city lies along the Amba Bay in the Gulf of Guinea and is home to famous slave trade village in Bimbia, with hopes to be recognized as UNESCO world heritage site.

According to World Population Review, Cameroon has one of the highest urbanization rates in Sub-Saharan Africa. The UN has estimated that this population would be 70% urban by 2070. Happily Limbe is right on course with about 72,106 inhabitants!

5. UNPARALLELED TOURISTIC SITES

Limbe is a beach town city lying on the southern slope of Mount Cameroon (Mount Fako), wetting generously in the waves of the Atlantic Ocean; it's beautiful black sand beaches, home to a wildlife center, that rescues and rehabilitates primates a botanic garden with divers plants and a herbarium.

6. THE HEART OF CAMEROON'S PETROL CITY

Limbe is the heart of Cameroon's petrol city (SONARA) and the Cameroon Development Corporation (CDC) - a public enterprise and the country's largest employer of labor after the state.

7. SURROUNDED BY OPPORTUNITIES

Limbe is about 72Km drive from the economic capital and Cameroon's most populated city and 15Km from the regional capital, Buea. All offering great learning opportunities for internships, professional field trips and leisure!

THIS IS WHY OUR PROGRAMS ARE SANDWICHED WITH FIELD BASED TEACHING!

PAC-LAB HITMS

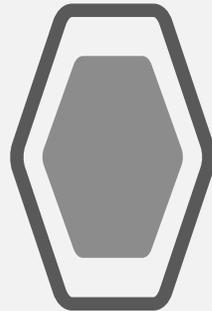

About Us

OUR VISION

Empower every student at every level with hands-on skills to improve our communities.

OUR MISSION

- “To raise entrepreneurs, job-creators, problem-solvers, and tomorrow’s leaders.”
- “To engage students with a learn-how-to-do-it understanding and a journey of practice-oriented transformation. From this, our students get exposed to new ideas and new ways of understanding, develop the ability to fashion their lives based on what they are capable of, assess their interests and how they can best serve the world from a blend of their learning, a discovery of their gifts, talents, and available resources.”

We're
Accepting
Applications.

**GIVE US
A CHANCE** 😊

It's a new academic year and admissions are open! Don't miss this opportunity to enrol into one of our school. Send your application now to:

Our History

PAC-LAB HITMS is the brainchild of our almost two-decade-old laboratory, popularly known as PAC-LAB Company, founded in 2004 by its CEO Mr. Wenfua Sonchifua Peter, with 25 years of experience.

Petroleum - Water Analysis and Control Laboratory (PAC-LAB) has and continues to provide several quality services; and has established 'clientship' and professional friendships with different companies and various government ministries in Cameroon, such as the Ministry of Energy and Water Resources, Ministry of Mines, Industry, and Technological Development, Ministry of Environment, Nature Protection and Sustainable Development, and several principal clients such as BOCOM INTERNATIONAL, BOCOM PETROLEUM, BUREAU VERITAS CAMEROON, CDC, COLGATE PALMOLIVE, HYDRA, SGS CAMEROON, SONARA, and a host of others.

These state-of-the-art laboratories, rich heritage, and services to the nation inspired PAC-LAB HITMS.

MILE 4, LIMBE

Our Teaching Model...

RATHER THAN TEACH YOU TO CRAM CAUSES OF POLLUTION, WE GO BEYOND AND TEACH YOU TO CREATE SIMULATED SOLUTIONS TO POLLUTION!

- Students rarely bother about the **"HOW"** teaching-learning is done in their decision on where to study. On average scale students and parents alike are concerned about **"WHAT"** to study.
- While what to study is important, how you study is crucial!

WHY?

- The difference between **WHAT** you learn and **HOW** you learn is the subtle difference between the Euro-centric and Afro-centric educational systems.
- It is equally the difference between an educational system that prepares and equips learners with hands-on skills and that in which learners graduate with crammed content!
- Work-place requires practical application of knowledge (HOW) to solve real-world problems. Cram-work can't do this!
- We Make the difference in the teaching and learning transaction!

Our Unique MODEL

Students are exposed to the following Teaching-learning approaches:

- **FIELD-BASED LEARNING** (Students learn through direct interaction with an environment that reflects taught concepts rather than learning through indirect presentations of the setting such as textbooks or lectures).
- **PRACTICE-BASED LEARNING** (*Practice-based education*) involves learning from experience 'in the real world', which means that students spend time in a genuine professional environment as opposed to a traditional classroom)
- **PROBLEM-BASED LEARNING** (**Problem-Based Learning (PBL)** is a teaching method in which complex real-world problems are used as the vehicle to promote student learning of concepts and principles as opposed to direct presentation of facts and concepts).
- **PROJECT-BASED LEARNING** (*Project Based Learning (PBL)* is a teaching method in which students learn by actively engaging in **real-world** and personally meaningful projects).
- **If these approaches look like you, then PAC-LAB HITMS is the right place for you and are the kind of student we are hunting for!**

PAC-LAB HITMS places great emphasis on teaching and learning strategy.

Learning Environment

Our campus is located in a fantastic location within a few miles from the city center and the seafront.

Our classrooms motivate you to go beyond theoretical concepts, engage you with real-life scenarios and understanding how the world works.

Our classrooms emphasizes project-based learning, practical and field based experiences. These are great opportunities to get your hands dirty!

*Learn in an environment
like no other!*

Equipment Catalogue

State-of-the-art equipment

Equipment Catalogue

State-of-the-art Laboratory

Equipment Catalogue

State-of-the-art Laboratory

EARN A SIX MONTH WORK CERTIFICATE UPON GRADUATION

PAC-LAB HITMS is affiliated to PAC-LAB company, recognized widely for Petroleum, soil, and water analysis, installation of laboratory equipment, maintenance of laboratory equipment and a furnished medical lab. By a memorandum of understanding, PAC-LAB Company will be offering six (06) months of professional training at the end of such work-study training, students will be issued six (06) months work certificate from PAC-LAB Company.

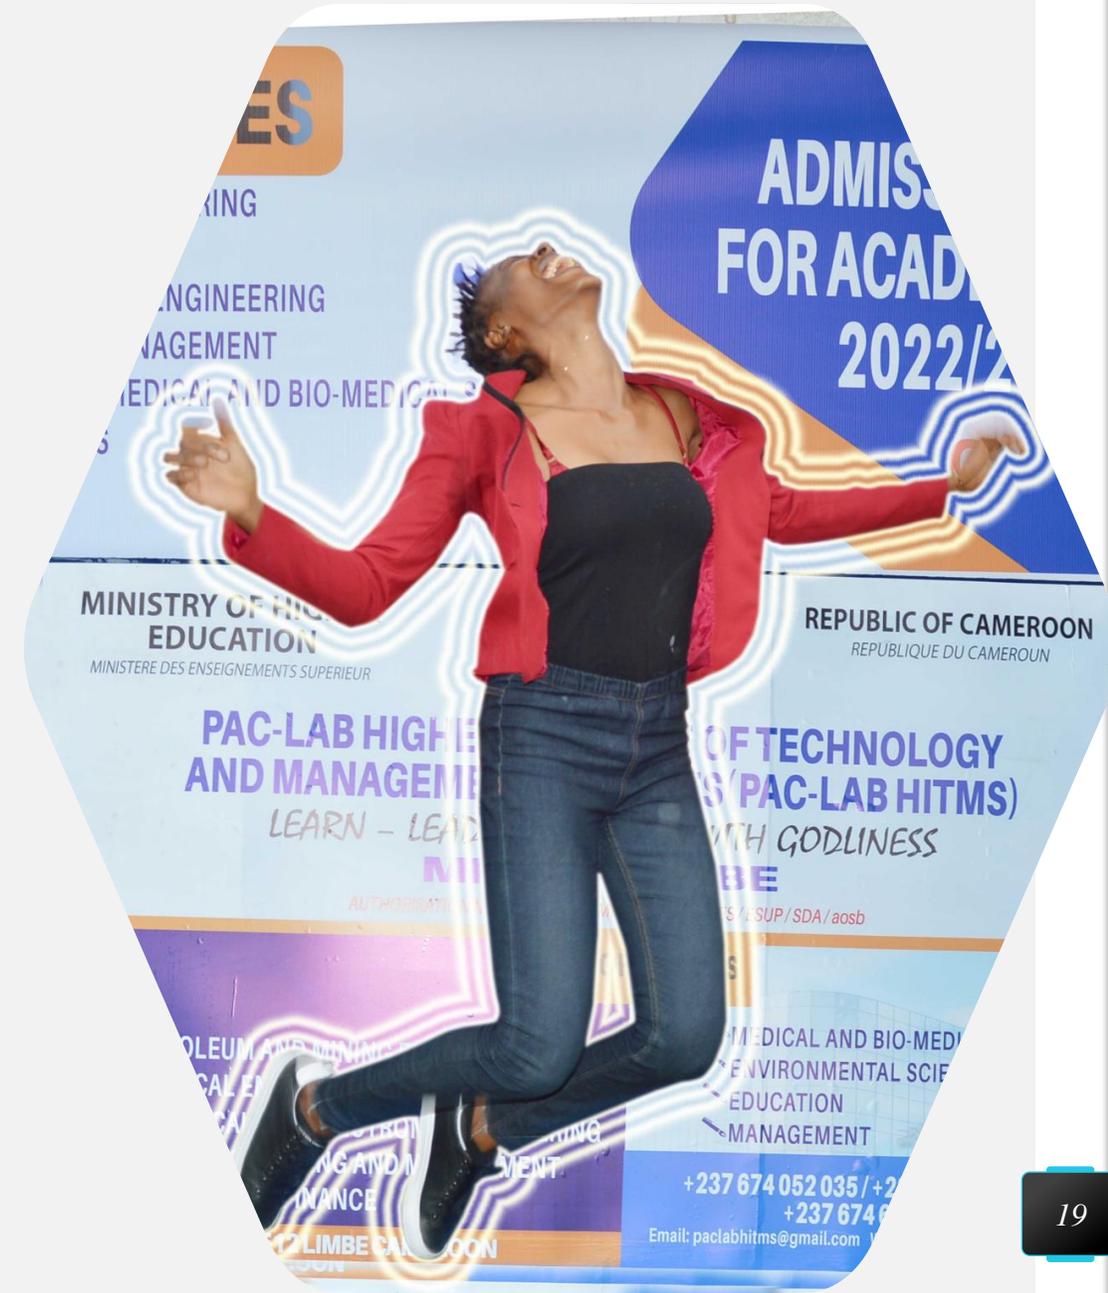

This certificate is an added advantage to our students in their career pursuits, help them stay competitive in the job market, and as a support document for further studies.

This will offer our students an opportunity to gain valuable job experience upon graduation.

OUR SCHOLARSHIPS

We understand that money is an important factor in choosing where to study.

- No doubt, Quality Higher education cost money - however PAC-LAB HITMS has a tremendous news for you'll!
- You can either be offered an "Explorer" Scholarship through study of file or "Need-based" scholarship by submitting a 300 word essay.
- Scholarships are offered on a rolling basis! Safe your spot today!

PAC-LAB HITMS **EXPLORER** SCHOLARSHIP is a merit-based scholarship aimed at attracting outstanding students to **explore** our programs, state-of-the-art laboratories, and our field-based, project-based, and practiced-based and problem-based teaching models.

Do I qualify?

Yes, you do; if you score(d) **18 points** and higher in your Advanced level, OR **14 average** and higher in your Baccalaureate.

Number of scholarships

The **Explorer** scholarship is limited to **150** students who enroll to study in one of our programs.

How are Applications Processed?

Applications are processed **on a rolling basis** (that is, as students apply) - be an **early bird** applicant! Early application is strongly encouraged.

Scholarship Worth

- 150,000 FCFA (18-20 points)
- 175,000 FCFA (21 -23 points)
- 200,000 (24 points)
- 50% fee deduction (25 points)

IS MY SCHOLARSHIP CASH?

The funds for this scholarship are used to **defray** the costs of tuition, therefore, expenses are directly tied to a student's educational cost through PAC-LAB HITMS.

How Long is the Explorer Scholarship?

The **Explorer** scholarship is for first-year studies **ONLY**. Students **must** maintain a CGPA of **3.5** and higher on a scale of **4** to be considered for the PAC-LAB HITMS **Excellence** scholarship scheme for registered PAC-LAB HITMS Student.

CAN I APPLY WHILE AWAITING MY RESULTS?

This is completely normal, students can save their spots in our programs on a conditional basis while awaiting their results. You'll be issued a conditional admission offer!

PAC-LAB HIGHER INSTITUTE OF TECHNOLOGY AND MANAGEMENT SCIENCES

EXPLORER 2022/2023 SCHOLARSHIP
